ABOUT PRODUCT

The ID550-EX Weighing Control indicator is a highly accurate EX-PROOF industrial weighing process indicator used in applications such as filling, dosing and weighing packaging suitable for use in hazardous areas. ID550-EX Weighing control indicator High level interference protection measures are taken in industrial signal processing and communication. By expanding the optional interface, real-time field bus communication for PC, PLC, DCS and other equipment can be realized. ID550-EX is widely used in metallurgy, chemical industry, building materials, paint filling, food and feed industries.

APPLICATION AREAS

Agriculture And
Livestock

Concrete Batching
Plants And
Construction

Food

Chemistry -
Petrochemistry

TECHNICAL SPECIFICATIONS

6-bit 0.56" Red LED Display and 5 state LEDs.

100,000 Display division, 6000e

200Hz A/D SPS, 200 Hz Target compare speed

5 Steps dynamic filter, High level vibration filter

Standard seri portlar (RS232/485)

Calibration without reference dead load (mV Calibration)

4 Inputs / 6 Outputs (OC)

4 Inputs / 6 Outputs (Relay)

4-20mA Analog Output (16-bit DAC)
