W24 Weigh And Counter Indicator

An industrial weighing indicator with 3 LCD displays with weighing and counter features.

ABOUT PRODUCT

The W24 is an industrial weighing indicator with 3 LCD screens that have weighing and counting features.

It can be used with counting scales and platform scales.

It shows total weight, unit weight, and quantity on three different screens.

It has high-precision A/D conversion of 1/30000 and adjustable tracking intervals.

It can automatically tally and adjust at startup intervals.

It also features a low battery indicator, charging protection circuit, automatic shutdown, and power protection.

The scale also supports accumulation.

RS232 communication is possible.

APPLICATION AREAS

Machinery And Industry

TECHNICAL SPECIFICATIONS

Accuracy Class	1/30000 (Non-Approved)
Display	3 pcs LCD display with backlight
Keypad	20 Button
ADC	Δ-Σ Delta-Sigma 20 bits
Resolution	0.6µV/e
Load Cell Input	-10mV ~ +15mV Input Range
Excitation Voltage	5V DC Max 150mA
Load Cell Count	Max 4 x 350Ω
Calibration	With Reference dead load
Filter	4 steps digital
Weight Units	Kg, Lb
Serial Ports	Com1 – RS232
Power Supply	AC110~220V 50hz Rechargeable battery 6V/4.5Ah
Operation temperature	-10 ~ 40°C
Housing	ABS Plastic
Weight	1.8 Kg
