

W1 Weighing Indicator

A weighing indicator that can be used in areas such as vehicle scales, scales, tank weighing systems and test equipment.

ABOUT PRODUCT

W1 weighing indicator is suitable for use in many areas such as vehicle scales, platform scales, tank weighing systems and test equipment.

It has OIML R76 and EU type approved certificate.

High sensitivity A/D conversion 1/30000;

Adjustable zero tracking range.

Zero at opening, auto zero range.

Low battery display and battery protection circuit.

Auto off and power protection option.

Live animal weighing option.

Accumulation.

High and Low Weighing Display (Hi-Lo).

RS232 Communication.

APPLICATION AREAS

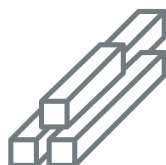

Agriculture And
Livestock

Food

Concrete Batching
Plants And
Construction

Iron Steel Metal

Logistics And
Transport

Machinery And
Industry

TECHNICAL SPECIFICATIONS

Accuracy Class	1/30000 (Non-Approved)
EU Type Approval	(III) n=3000 Division
Display	20mm Red LED
Status Displays	7 pcs Status LEDs
Keypad	5 Membran Button
ADC	Δ - Σ Delta-Sigma 20 bits
Resolution	0.6 μ V/e
Load Cell Input	-15mV ~ +15mV Input range
Excitation Voltage	5V DC Max 150mA
Load Cell Count	Max 6 x 350 Ω
Calibration	With reference dead load
Filter	4 steps digital
Weight units	Kg, lb, Liter, Ton, Newton
Serial Ports	Com1 - Rs232
Power Supply	AC110~220V 50hz Rechargeable 6V/4.5Ah Battery
Operation Temperature	-10 ~ 40°C
Housing	ABS Plastic
Weight	1.8 Kg
Sizes	180x170x58
